

ECOM Foundation Satellite School  
San Antonio de Chacaya, Atitlan, Guatemala  
May 8th Inauguration Day!

On May 8th 2015, an inauguration ceremony was held for the new ECOM Foundation Satellite School, San Antonia de Chacaya, in Santiago Atitlan, Guatemala for primary school students from two area schools, and for the area's adult farming community. An administrative committee has been created to oversee this CCA, Centro Comunitario de Aprendizaje, with the assistance of the Ministry of Education and contractual assistance from NGO, Pueblo a Pueblo. We congratulate, with great admiration, our ECOM Project Management Team, Fernando Quintenal and Aldo Orlando Lopez, and their teams, for all their fine effort in establishing this beautiful school, a lasting legacy of care and education to the coffee growers of Guatemala from the ECOM Foundation!

"Together we can make a difference in their lives."
