

## Kikai Water Project ~ Kenya

### ECOM Foundation Partners with SMS ECOM & Starbucks

To provide access to clean water at the Kikai Farmers' Cooperative Society on the slopes of Mt. Elgon in Bungoma

County in Western Kenya, the Kikai Water Project has been implemented, which also protects the existing water spring at Kutere. Reinforcements around the water spring stops direct interference, followed by the provision of a water point about 300 meters away. This benefits 300 farmers' households and can be extended to reach the first

wet mill 300 meters away. The first stand will be constructed on a local church compound. The project will benefit the community in future extension downslope to other community facilities such as Kikai Primary School, Kikai Boys & Kikai Girls School, comprising a total of 1,860 students

## Moanti Water Project ~ PNG

### ECOM Foundation Partners with SMS ECOM & Starbucks

Clean water will be sourced from Mt. Yahuve which is an approximately 20 minutes' walk up the mountain, and will provide a water supply for 500+ families. Currently, villagers have to walk long distances to carry water to their homes. The water supply project designed will run pipes with the establishment of tanks over a total distance of approximately 1.2 km.

*"Together we can make a difference in their lives."*
