

Educate! Kapchorwa District, Uganda

With ECOM Foundation's support, Educate! has been able to offer an experience-based model to secondary school students in six schools in the Kapchorwa district of Uganda, comprised of entrepreneurship and leadership training, mentorship, and experience starting an enterprise. This has led to the formation of six successful business clubs; the launch of profitable businesses including soap-making, beekeeping, and farming.

~~~~~

Uganda has the world's youngest population, and with the highest youth unemployment rate at 83%, 90% of Ugandan youth are destined to work in the informal sector.

The Educate! program addresses these statistics.

## ECOM Foundation Satellite School San Antonio de Chacaya, Atitlan, Guatemala

Primary School Students in the Atitlan area of Guatemala will soon have an ECOM Foundation Satellite School to attend in order to complete their computer based education. In the project funded by the ECOM Foundation with Project Managers, Fernando Quintenal and Aldo Orlando Lopez, construction has commenced. Local NGO, Pueblo a Pueblo has contracted with the project to provide additional administration. Community and Ministry of Education participants have been enlisted for involvement. The surrounding farming community will utilize the school during weekends and evenings. More soon...
